

CHICAGO YARDS TO OPEN SUNDAY

Disinfected and Cleaned to Stamp Out Epidemic.

Fourteen States Now Under Federal Quarantine.

Kentucky Added to List of Suspected Districts.

(BY A. P. MORTIMER.)

CHICAGO, Nov. 10.—The Union Stock Yards, the largest in the world, will be reopened Sunday and will be the first to be disinfected and cleaned to stamp out the epidemic.

COMPLEXION OF CONGRESS

Democratic Lead Isn't at All What It Was Two Weeks Ago.

(BY A. P. MORTIMER.)

WASHINGTON, Nov. 10.—An official list of representatives-elect to the next Congress was completed today by South Trimble, clerk of the House of Representatives, and sent to the public printer. The compilation, not finally verified, but printed for information of Congress, gives:

Democrats, 233.
Republicans, 192.
Progressives, 7.
Independent, 1.
Socialist, 1.
Total, 435.

(BY A. P. MORTIMER.)

WASHINGTON, Nov. 10.—Cool, bright weather continues over practically all the country. Chicago's maximum today was 60 deg., or 5 deg. cooler than Los Angeles. The Ohio Valley had 55 deg. and St. Louis 64 deg. Eastern States are considerably colder than yesterday, and Canada is also down several degrees, with snow in the western provinces. Southern States are unusually cold for the season, considering the temperatures in the North. Other temperatures:

FIRING LINE
INOCULATION.Forty Billions of Microbes Daily
to Be Given the
Soldiers.(BY ATLANTIC CABLE AND DIRECT
WIRE-EXCLUSIVE DISPATCH.)PARIS, Nov. 10.—The Matin
announces that Auguste Lu-
miere has discovered and per-
fected a system of anti-typhoid
inoculation by means of a dry
powder in capsules, which are
practicable for use on the firing
line, where regular vaccine treat-
ment is impossible on account
of the after effects. Twenty-
eight capsules containing ten
billions of microbes apiece are
swallowed, four a day within
a week. The treatment is said
to give complete immunity. Lu-
miere's earlier studies were
made in photography, in which
he invented color photography.
He then took up chemistry and
bacteriology.

Villa Rushes Troops.

(Continued from First Page.)

The plan of the evacuation of
Veracruz by the American troops,
which was a telegram received to-
night from Foreign Minister Pabel-
lo, was said to be a public decree
to be issued shortly. In return
for these concessions the Carranza
government has asked the United
States to fix a definite date for the
evacuation.The reply of Washington is awaited
with interest by Mexicans in
view of the fact that two executives
are now claiming to be in power.Gen. Lucio Blanco, one of the Con-
stitutional leaders, is expected to
return to the capital tonight.The streets of the city were de-
serted tonight in the expectation
that Emiliano Zapata's men would
attack in force. Up to this hour the
expected attack had not materialized.The Minister of War says the men
under his command are sufficient to
prevent the capture of the capital.

NO WORD AT CAPITAL.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Nov. 10.—No offi-
cial word of the report that the Car-
ranza government had asked the
United States to fix a definite date
for the evacuation of Veracruz has
reached Washington tonight. It
had been generally understood, however,
that the troops would not be with-
drawn until the situation pending be-
tween Carranza and the Aguascalientes
convention had been adjusted.THINK CARRANZA
MAY SOON YIELD.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Nov. 10.—The
situation of the Mexican convention
at Aguascalientes ordering Gen. Car-
ranza to deliver the executive power
in Mexico City to Eulalio Gutierrez
aspirant at 4 o'clock tonight.Neither the State Department nor
the Mexican Embassy here, in charge
of Carranza agents, had any definite
advice as to what had happened.
Early in the day Rafael Zubaran Cap-
many, Washington representative of
Carranza, received a telegram from
Luis Cabrera, who was at Cordoba
with Gen. Carranza yesterday, stating
that the latter had decided to recog-
nize the acts of the convention with
certain reservations.Carranza, according to Mr. Cabrera,
told the commission which came to
notify him of the selection of Gutier-
rez by the convention that he was
willing to yield the executive power
to a provisional President who would
exercise no theoretical but actual con-
trol of the Division of the North, now
commanded by Gen. Villa.In some quarters this was inter-
preted as a wavering in Carranza's
hitherto firm refusal to accept acts of
the convention, unless Villa and Za-
pata were deprived of their military
commands and relegated to private
life. In other quarters it was con-
sidered merely as another way of ex-
pressing Carranza's determination to
eliminate Villa if he himself retired.The convention had formally notifi-
ed Carranza that it intended to ad-
minister the oath of office to Gutierrez
as provisional President tonight, and
that anyone who did not recognize
him would be considered as in revolu-
tion against the constituted govern-
ment in Mexico. If necessary, hostil-
ities will be begun at once against Car-
ranza's forces to enforce the conven-
tion's will.There was a feeling in administra-
tion circles that Carranza eventually
would yield to the wishes of the con-
vention, being unwilling to plunge
Mexico into another revolution. This
was based, however, more on previous
intimations in official reports as to
Carranza's desire for peace, than on
any direct advice today.A message from Cordoba to the
Constitutionalist agency said:
"Carranza informed the commission
that while he was not bound in any
way to recognize the validity of the
convention's actions, or desired to give
them formal recognition, that he was
prompted by the feelings of patriotism
to turn over the executive power of
the nation and the chief command of
the Constitutionalist forces to any man
named by the convention to govern
for a definite Constitutional period,
who would actually assume a
real control over the Division of the
North, assuming command of the
troops and having the central gov-
ernment in fact, and not merely in
theory, govern that portion of the re-
public in a like manner as all others."According to the Constitutionalist
agency, the message is being delivered
to the convention today.All available Carranza troops were
moving south today from Piedras
Negras to Saltillo, according to official
dispatches received at the State De-
partment. From previous advices the
Washington government has learned
that at 6 o'clock tonight Gen. Gutier-
rez will take the oath of office as
provisional President.NACO INVESTED
BY MAYTORENA.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Nov. 10.—Secretary
Garfield received the following tele-
gram today from Maj. Gen. Bliss at
El Paso, in regard to the situation at
Naco, on the Arizona-Mexican border.
"Maytorena's force has completely
driven the Constitutionalists from the
hill position at Naco, but has not
commenced to take a position
for attack. His headquarters are
located at the Cananea Railroad.
Several miles south of Naco."
There was some firing yesterday
afternoon at long range by Hill's men,
but no reply.Maytorena evidently is awaiting
orders to make an attack.JAPAN TO KEEP
HER PROMISES.Embassy Declares Kiao-Chow
to Be Returned to China.Mikado Doesn't Favor Send-
ing Troops into Europe.Has Much Praise for Bravery
of the German Army.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Nov. 10.—The sur-
render to the Japanese by the Ger-
mans of the fortifications at Tsing-tao
and the surrounding territory of Kiao-
chow, has not altered Japan's an-
nounced intentions of eventually re-
storing Kiao-Chow to China. It was
announced today at the Japanese Em-
bassy here.Technically and legally it was said,
as Japan had demanded in its de-
claration of war, that Germany sur-
render the fortress of its own accord
and as Germany did not accede to the
demand but resisted, it was pointed
out that Japan was not absolutely
bound to restore Kiao-Chow.It was said, however, that no de-
finitive or positive announcement would
be made at this time in regard to
Japan's ultimate decision. But it is
known that strong influences in Japan
are at work toward the maintenance
of friendly relations with China and
it is believed that Kiao-Chow will be
returned at the end of the war.That Japan would assume the of-
fensive or send troops to Europe until
requested by Great Britain to do so,
was not thought probable unless Ger-
many was successful against the allies
endanger the vital life or threaten the
existence of Japan.JAPS PRAISE
GERMAN DEFENSE.

(BY PACIFIC CABLE.)

TOKYO, Nov. 10, 8:30 P.M.—An of-
ficial account of operation before
Tsing-tao has been made public. It
is couched in modest terms, but it
shows that the storming of the Ger-
man stronghold was characterized by
the same recklessness and disregard
of life that the Japanese soldiers
evinced in the war with Russia.Led by a detachment of engineers
who exploded a powder magazine of
the enemy at heavy cost in lives, the
Japanese mounted the German parapets
in a deadly rain of bullets from
the machine guns. They were blinded
by the illuminated shells exploded by
the enemy to reveal their position.The account lays emphasis on the
stubbornness of the German defense,
and dwells upon one fierce engage-
ment fought by the light of the moon.
After Fort Moltke had been captured,
the order was given to halt. Thus
deadly encounters in the street were
prevented.TURN TSING-TAO
OVER TO JAPS.

(BY ATLANTIC CABLE AND A. P.)

LONDON, Nov. 10.—The German
stronghold of Tsing-tao according to
a dispatch received by the Central
News from Shanghai was uncondi-
tionally handed over to Japan at 10 o'clock
this morning.KAISER LAUDS
TSING-TAO ARMY.

(BY WIRELESS AND A. P.)

BERLIN, Nov. 10.—Johannes
Kaempf, President of the Reichstag,
has received the following dispatch
from Emperor William.
"The heroic defense of Tsing-tao,
that model settlement of the German
civilization, built with the labor of
many years, brings new laurels to the
spirit of faithfulness unto death.
Faithful German people have so oft-
en shown since their army and their
fleet have been in defensive warfare
against a world of hatred, envy and
covetousness, a war which, if God
wills, will not be in vain."JAPS DEMAND
NEW CONCESSIONS.

(BY WIRELESS AND A. P.)

BERLIN, Nov. 10.—The Novre
Vremiya, a newspaper published in
Petrograd, reports that the Japanese
government has demanded from China
a concession for the construction of
a railroad from Tsin-Nan, in Shan-
tung Province, to the Yangtze River.TURKISH ENVOY
TO SEE KAISER.

(BY ATLANTIC CABLE AND A. P.)

BERLIN, Nov. 10 (via The Hague
and London).—Mahmoud Moukhar-
Fasha, the Turkish Ambassador to
Germany, and a distinguished soldier,
has left Berlin for the headquarters
of Emperor William.MEXICANS BURN
TWO BRIDGES.

(BY A. P. DAY WIRE.)

DOUGLAS (Ariz.) Nov. 10.—Two
bridges on the Naco-Cortez Railroad in
Sonora, Mex., were burned last night,
probably by adherents of Gov. Go-
mez. Telegraph wires also were
cut. Two hundred men from the Car-
ranza garrison of Ariz. Prieta accom-
panied the work train which was sent
south today to repair the damage.

GEORGE GRAY KILLED.

Employee of the Big Contractor
Fires Two Bullets Into His Body
During Dispute Over Wages.

(BY A. P. DAY WIRE.)

SAN FRANCISCO, Nov. 10.—Two
bullets in the back settled the scores
today of George Gray, senior mem-
ber of the firm of Gray Brothers, con-
tractors and quarrymen. Joe Lococo,
an employee, fired the shots after a
dispute over 117 for wages due, which
he was unable to collect. Gray fell
dead on the sidewalk.Gray Brothers at one time worked
the quarry which has so scarred Tele-
graph Hill, the first landmark sighted
by incoming vessels after they have
passed the Golden Gate, and it was
here that a series of legal battles
that made them notorious that they
were finally ousted.

Cry of War Orphans.

(Continued from First Page.)

agriculture under the direction of
permanent and competent teachers.
Attached to the school would also be
a trained nurse to look after the phy-
sical well-being of the pupils and a
matron to give them "the best pos-
sible substitute for the fostering care
and sympathy of a mother."

NEGOTIATIONS.

The legal and administrative dif-
ficulties are being rapidly cleared out
of the way. Negotiations with the
Belgian government and others in
authority are being carried out. Dr.
Evans is progressing with the organ-
ization of a staff of skilled social
workers. Many generous offers of
volunteer service have been received
from physicians and nurses. Several
groups of women have asked if an
outfit of clothing and bedding will
not be required for the long journey
to be taken by the little ones.Before long it is hoped a definite
announcement can be made as to all
of these details.

READY RESPONSE.

The plan of the Chicago Tribune
and the Los Angeles Times for the
adoption of war orphans by Ameri-
cans has met a ready response from
leading people of both German and
English birth. Representative soci-
eties of both nationalities in the city
expect to present the plan in full to
their members at coming meetings.Former Judge Michael P. Gilten,
president of the German Aid Society,
the oldest of the local German soci-
eties, expressed himself as in
hearty accord with the plan "pro-
vided the details could be worked
out, as he believed they can be."Julius Goldzier, who is acting as
treasurer of the German-Austro-
Hungarian Relief Society, doubted
that many Germans would adopt
Belgian orphans, but thought those
among the Germans in Chicago might
be found for the little ones in Ger-
many who have been left without
support by the ravages of the war.SMEAR IODINE
ON GIRL STUDENT.SKIN BURNED OFF AND SHE IS
SEVERELY BEATEN DURING
INITIATION.

(BY DIRECT WIRE-EXCLUSIVE DISPATCH.)

MARIETTA (O.) Nov. 10.—Miss
Ethel Sweeney, daughter of a wealthy
oil operator and co-ed in Marietta
College, is under a physician's care
because of a severe beating and other
indignities heaped upon her by sister
co-eds during her initiation into a so-
ciety of the college a few days ago.The young woman alleges she was
told to go to the temperance meet-
ing in the tabernacle and shout the word
"boose" in the speaker's face. When
she refused she was given the severe
treatment. Later she was taken to
the attic of a well-known Marietta
home, stripped of part of her clothing
and beaten until blood oozed from
cuts made by the lash.To finish her work, iodine was
smeared over her face and the skin
burned off.TROOPS MOVE
ON SALTILLO.

(BY A. P. NIGHT WIRE.)

SAN ANTONIO (Tex.) Nov. 10.—A
message received here tonight from
Piedras Negras says that Col. Seba-
stian Carranza, Jr., a nephew of Gen.
Carranza, was leaving there with 1700
soldiers for Saltillo, where Gen. Luis
Gutierrez, a brother of the provisional
President, is commander-in-chief of
the troops. It was announced that
Gen. Gutierrez' loyalty to Carranza
was questioned since his brother be-
came President, and the younger Car-
ranza was delegated to replace him in
command of the troops at Saltillo,
which has been considered a Car-
ranza stronghold.Following Gen. Carranza's an-
nouncement that he would not resign
in favor of Gutierrez, reports came
from Saltillo that the troops were
being urged to declare for Villa.

RETIRED CITY FIREMAN HAD PILES
20 YEARS; AKOZ MADE HIM WELLJOHN W. REILLY FORMER IN-
SPECTOR OF ENGINES, HAS
WORDS OF PRAISE FOR
REMEDY.John W. Reilly of Ninety-fourth
and Hillside streets, Elmhurst, retired
member of the San Francisco Fire De-
partment, says that in all the years he
was in the department he never found
a remedy that relieved his case of
piles as Akoz did. Mr. Reilly, one
of the oldest retired men, was with
engine No. 1 from 1887 to 1876, and
the last seventeen years of active ser-
vice was inspector of engines. Be-
fore the fire he resided at 1711 Oak
street. He says:"I had bleeding piles for twenty
years, sometimes so bad I was nearly
driven frantic. Trying all kinds of
remedies and spending lots of money
for different treatments did not do me
much good. I was beginning to
think that I would always have them.
After hearing so much about Akos
from many firemen I decided to give
it a trial. I got relief right away
from the external treatment and the
internal water taken internally has
done much to get at the cause. My
general health has improved wonder-
fully and I feel like a young man
again. It certainly gives me much
pleasure to recommend such a won-
derful remedy as Akos, and I hope
that my friends will be benefited by
reading this letter. I know that if
they once use Akos they will say the
same as I."

GRAY HAIR RESTORED BY NATURAL MEANS.

Don't Use Dyes. They May Harm
Bring Back Natural Color
by Action of Aair.Those gray strands that convincingly
remind your friends of your advancing
years, color by natural forces. It con-
tains good old-fashioned remedies which
strengthen the hair, and with them is a
certain element which restores the
hair that when it is exposed to air it
comes back to color nature intended.

Would You
Trust A Man

whose surroundings, mode of life, and food and drink, have
combined to make him treacherous, indolent and unreliable?

And food drink are among the chief causes.

Coffee—one of the commonest beverages—contains a
drug, caffeine, which affects stomach, liver, heart and other
organs.

Some persons are strong enough to stand the attacks of
the coffee-drug, but to most people it is a poison, and sooner
or later is bound to tell.

If you find coffee is hurting you, quit it and try

POSTUM

This healthful food-drink is made of prime wheat and a
bit of wholesome molasses, carefully blended and roasted.
It contains the food elements of the wheat and molasses and
nothing else—nothing injurious or harmful.

Serve Postum piping hot and it is delicious and invig-
orating.

"There's a Reason" for POSTUM

NOTES STRONG TO IRRIGATE.

San Fernando Valley Bonds for Big District.

Conduct Surplus Water and Greater Crops.

Money Revenue to the City and Ranchmen.

A lot of greater promise dawned yesterday for the San Fernando Valley with the overwhelming carrying of the \$1,000,000 bond issue to create an irrigation district covering 74,000 acres.

The ready acceptance of the plan by the voters of the valley a summary of the vote is shown by the fact that out of the total of 760 votes cast 680 were "yes." At Oxnardmouth there was not a single "no" vote.

Van Nuys showed 431 affirmative votes out of 439; Chatsworth 191 out of 194, and Pacoima 150 out of 150.

The bond issue will cover the expense of constructing divisional canals to divert Los Angeles surplus water upon a great very fertile land. To facilitate the plan, as well as to expedite hand-delivered here, the city is constructing a permanent trunk line through a part of the valley.

Engineer Mulholland of the department gave it as his opinion yesterday that it will take at least \$1,000,000 to build the canals for the proposed irrigation district.

He is getting temporary service before that, however," he said.

BY NEXT REASON.

What the plan is to have water under portion of the \$1,000,000 bond issue, the aqueduct by the city.

Manufacturers Believe They have something now that will foil the ingenuity of the cracksmen.

[Saturday Evening Post.] Ingenious burglars have been given a new burglar-proof safe to tackle, designed to prevent blowing of the safe by working nitroglycerin into the cracks around the safe door.

That method of attacking a safe is still the favorite one. The old way was to drill holes in the door and pour in the explosive; but, long since, the doors of the best safes have been made of steel that cannot be drilled by a burglar.

Then the attack shifted to the cracks around the door; but the safe maker met this with doors that fitted so perfectly that the simple insertion of a sheet of paper between the door and the jamb would prevent closing the door.

The burglars responded by widening the crack according to several methods. One was to pound the edge of the door and the edge of the jamb with heavy round-headed sledge hammers, distorting the edge sufficiently to permit "feathering" an explosive into the crack.

A new design of safe has all these old protections, and an added one to take care of any nitroglycerin the burglar finally works into the crack. It has triple walls, with an air space between, and each wall has a separate door.

The two outer walls have many small holes drilled through them. The doors do not fit so tightly on the inside of the jamb as on the exposed side. Therefore, if any nitroglycerin is worked into the crack it will run down the air space and out through a hole; or if any is exploded in the air space much of the force of the explosion will go out of these leakholes.

THE GUERRE. We carry only sterling silver, 14-carat gold, stones without flaws.

Battle With Bandit.

Continued from First Page.

throw up his hands. A moment later the bandit started to shoot. Four passengers—two men and two women—who were seated near the front of the car, were panic-stricken when the revolver duel began. Two of the conductor's bullets struck the sides of the car, while the third is thought to have struck the bandit.

CITIZENS ON HUNT. Citizens armed with revolvers and shotguns were gathered by George W. Herold, Town Marshal of Glendale, and the ground between Glendale and Montrose was covered. Five deputy sheriffs were rushed to the scene of the hold-up in automobiles from the sheriff's office, but nothing could be found.

According to Conductor Smith the bandit has been seen for several days hanging about the end of the car line. On several occasions he has, the conductor declares, boarded his car and ridden to the end of the line. Up to a late hour this morning no description of the bandit had been received at the sheriff's office.

DEATH BETTER THAN BLIND.

Woman Who Attempts to Take Own Life Says She Was Told Her Sight Is Endangered.

Suffering from an affliction of the eyes and fearing that she would go blind Miss V. May Shell, 45 years of age, of No. 1474 Allison avenue, yesterday attempted to commit suicide by inhaling chloroform. Discovered by L. V. Rector of the same address Miss Shell was taken to the Receiving Hospital in a serious condition, but according to the surgeon she will recover.

Miss Shell says several weeks ago she was told that she is suffering from eye trouble and may lose her sight. Brooding over this statement the woman yesterday waited until every one had left the house and then framing a cone with wire and cotton placed it over her mouth and started to inhale the chloroform.

Hearing groans when he entered the house at about 7 o'clock last night Mr. Rector investigated and discovered Miss Shell in her room in an unconscious condition.

BARTENDER KILLS HIMSELF.

Placing a gas tube in his mouth and then turning on the gas, Walter Klein, 31 years of age, a bartender living at No. 1000 1/2 South Main street, early last night committed suicide. Discovered by his landlady, Mrs. A. Johnson, in a dying condition Klein was rushed to the Receiving Hospital, but passed away in a short time. The body was taken to the Breeze morgue. Klein came to the United States several years ago from Germany.

"BURGLAR-PROOF" SAFES.

Manufacturers Believe They have something now that will foil the ingenuity of the cracksmen.

[Saturday Evening Post.] Ingenious burglars have been given a new burglar-proof safe to tackle, designed to prevent blowing of the safe by working nitroglycerin into the cracks around the safe door.

That method of attacking a safe is still the favorite one. The old way was to drill holes in the door and pour in the explosive; but, long since, the doors of the best safes have been made of steel that cannot be drilled by a burglar.

Then the attack shifted to the cracks around the door; but the safe maker met this with doors that fitted so perfectly that the simple insertion of a sheet of paper between the door and the jamb would prevent closing the door.

The burglars responded by widening the crack according to several methods. One was to pound the edge of the door and the edge of the jamb with heavy round-headed sledge hammers, distorting the edge sufficiently to permit "feathering" an explosive into the crack.

A new design of safe has all these old protections, and an added one to take care of any nitroglycerin the burglar finally works into the crack. It has triple walls, with an air space between, and each wall has a separate door.

The two outer walls have many small holes drilled through them. The doors do not fit so tightly on the inside of the jamb as on the exposed side. Therefore, if any nitroglycerin is worked into the crack it will run down the air space and out through a hole; or if any is exploded in the air space much of the force of the explosion will go out of these leakholes.

N Size, Safety and Service

—the Logical Bank for the Savings Depositor!

The SECURITY was established twenty-five years ago, in 1889. How well it has served the community in this quarter of a century is best shown by the following facts:

1. It is the largest as well as the oldest savings bank in the Southwest.

2. It has a Capital of \$1,800,000, Surplus of \$1,100,000, and \$767,916.21 Undivided Profits—an aggregate larger than that of any other savings bank in this section of the country.

3. It has more than 88,000 individual depositors.

4. It has paid its depositors in interest during the first six months of this year the sum of \$645,352.31 and will pay a probably equal amount for the half-year period ending December 31st.

In our Savings Department \$1 is all that is required to open a Term Savings Account. The 4% interest you receive on your deposits is net—free from deductions of State, County and City taxes.

A 130-page, cloth-bound Handy Atlas of the World given Free upon request at the time you open your account. New account windows are numbered 25-26-27-28 and 29.

Women's Work.

(Continued from Sixth Page.)

Smith College Graduates.

It is claimed that Smith College is the largest college exclusively for women in the world. Many graduates are found among the prominent women of the Southland. They are enthusiastic in their opinion of Dr. L. M. Burton, the present president of Smith, now visiting California. He addressed the Girls' Collegiate School Friday morning, and made an appeal to the girls of the school to make their lives like drops of water that wear away the obstructing stones, not like rushing cartwheels that so often work devastation in their action.

PURPLE FOR MOURNING.

Movement in England to Economize the Expense of Bereavement by Wearing a Band on the Left Arm. [London Times:] There is a strong movement on foot to dispense with the orthodox form of mourning in the event of casualties occurring in the British navy and army. A number of suggestions have been put forward designed to effect economies, although at the same time in no way minimizing the respect for the gallant dead. Recently was published a letter on this topic from Mrs. Edward Lyttleton, which, in view of the interest it has aroused, we reprint in full:

"If the country should decide to dispense with such mourning, the economic effect will be to save a disturbance of cash expenditure. Mourning will still be bought for those who die natural deaths; but we should have a large additional and artificial expenditure, temporarily induced by the heavy death roll of the next few weeks and the money so saved will be available for the support of ordinary trade. This independent of the weightier reasons for changing our usual custom."

"What I am advocating is something that would be an appeal to all hearts for sympathy in bereavement, and it would mean practically no expenditure, for the simple narrow band of purple cloth to be worn on the left arm by every man, woman or child who had lost a relation in the war would cost practically nothing and the badge would be the same for all classes."

In a few days we shall be receiving the news of great loss of life on the continent and at home. One's first thought is a strong conviction that for lives lost in such a noble cause the wearing of conventional mourning would be a waste of money.

The saving of expense at such a time would be a clear gain to many families who have lost the breadwinner. Let rich and poor alike wear the purple armband. The rich, if they desire, can give the cost of the mourning so saved to one of the many war funds.

BABY'S EYES MOVE A JUDGE.

And He Decides that a Woman was Palming Off Another's Infant on Her Husband.

[Chicago Herald:] The brightness of a baby's blue eyes caused Municipal Judge Caverley to hold a woman to the grand jury in bonds of \$1000 yesterday.

The woman is Miss Gertrude Belmes, who was charged with using a borrowed baby in an attempt to deceive Policeman Forrest L. Watson and to get money from him for the support of herself and the child.

Stella May, a colored girl, and witness for the prosecution, said she was called by the doctor into the room where lay Miss Belmes and the baby. She supposed the infant had just been born.

"It was a bright child," she said, "the brightest I ever saw. Its little eyes were looking all around the room."

Mrs. Carlos Montezuma, wife of the physician who insists he is the victim of a "frame-up," testified she had taken the child from Dr. W. F. Bruney, superintendent of the Anna Ross sanatorium, and carried it to Miss Belmes at a rooming-house at No. 4800 Ellis avenue.

Counsel for the defense tried to impeach her statements, as well as those of Stella May. But the judge decided the child born could look all around the room. Therefore, he was of the opinion that Miss Belmes was not the mother.

Large Cargo of Cork.

The steamship Ruby, which arrived at Baltimore last week, brought from Spain the largest single cargo of cork ever imported, the consignment containing 1,098,360,000 cork disks, on which \$95,669.55 was paid duty.

PIMPY? WELL, DON'T BE!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets.

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, the bowels and the liver with Olive Tablets.

Dr. Edwards' Olive Tablets are the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

FOR WOMEN AND MEN.

Facts, Features and Fancies.

BY OLIVE GRAY.

THE GOOD HOUSEKEEPER'S HINT.

A delicious and inexpensive casserole dish is made as follows: Use two pounds of round steak cut from one inch to an inch and a half in thickness. Cut this in pieces of convenient size for serving. Saute both sides in an iron frying pan rubbed over with fat from the meat, to seal in the juices. Into the casserole put the meat together with carrot, parsley, small onions, a tablespoonful of kitchen bouquet, and salt and pepper to taste. Cover with brown stock, or boiling water, cover and allow to cook in the oven for an hour and a half. Serve from the casserole. Round steak is really preferable to the more expensive cuts for this nutritious and excellent dish.

Rainy Day Clothes!

What sort of vision comes to mind as you think of rainy day clothes? Some skirt of other years, minus its or bang, wedged but ready to be lightly put asunder from a jacket of another age, a hat which has spent the summer in the attic or the darkest closet where its unbecoming shape was mercifully in eclipse and very likely a veil of the very color which all the spectators in the most removed from yours. Add to this alluring costume a limp ribbed umbrella with a warty handle, and can you wonder that rainy weather makes people the blues? It makes you dismal to wear such things and sets on edge the teeth of those who see them.

Do you know, I have all my life fought the nearly uncontrollable desire to dress myself on a rainy day in the very best garments I possess. Perverse, I know, for there is clothing appropriate to rainy weather wear—of course—but I just cannot help the wish to thus combat the gloom. And let me confess—I have many times dressed in my best—best entirely inappropriate to wet weather wear and have allowed my friends to think that I was "going somewhere" when it was only that I wished to meet and overcome the weather. Sometimes, let me say, the weather has overcome me instead and has made havoc with my finery, but on the whole, I think I have had the best of it. It is amazing how long one can dodge between the drops and meet with little damage. However, I am not preaching to anyone else the advisability of wearing best attire on a rainy day, but oh, do let us have at least cheerful garb when the skies are dreary! A neat, short skirt, a well-fitting jacket to match, a natty hat, a light umbrella with graceful handle, and on that day, if at no other time, a gay bouquet to flash its brightness against the atmospheric gloom! We and those who meet us shall feel the better.

Shool Unkempt Shoos!

Time was when, if you had a taste that way, you might wear and conceal unkempt shoes beneath the long walking skirt, but Dame Fashion has seen to it that your deception should be revealed, and now, with the skirt well above the ankle, no such indulgence is permitted. Your shoes must, this season, at least be as perfect as your hat, your skirt, your coat. Shoes have suddenly taken on unwonted arrogance. The saying "well dressed from top to toe" might be reversed and be said "from toe to top."

The Latest.

Without doubt the smartest footwear is the high boot—laced to be ultra—with light cloth top in either tan or gray, or, in some extreme cases, chamois. The vamp may be of either patent or dull leather, and the last is as yet an individual matter, although it is said that the short vamp is again upon the horizon. One recent importation which I saw was an ultra high boot, with light tan top and black leather vamp, black lacing and a touch of black tassel across the top. Another, a gaiter boot in tan, was so cut that the gaiter effect did not fail to yield ample room for the insertion of the foot even when the arch was extremely high. The gaiter effect is undiminished in popularity, whether the boot be very high or medium. But, despite predictions to the contrary, light cloth tops grow more popular daily.

It is amazing how long one can dodge between the drops and meet with little damage. However, I am not preaching to anyone else the advisability of wearing best attire on a rainy day, but oh, do let us have at least cheerful garb when the skies are dreary! A neat, short skirt, a well-fitting jacket to match, a natty hat, a light umbrella with graceful handle, and on that day, if at no other time, a gay bouquet to flash its brightness against the atmospheric gloom! We and those who meet us shall feel the better.

Shool Unkempt Shoos!

Time was when, if you had a taste that way, you might wear and conceal unkempt shoes beneath the long walking skirt, but Dame Fashion has seen to it that your deception should be revealed, and now, with the skirt well above the ankle, no such indulgence is permitted. Your shoes must, this season, at least be as perfect as your hat, your skirt, your coat. Shoes have suddenly taken on unwonted arrogance. The saying "well dressed from top to toe" might be reversed and be said "from toe to top."

The Latest.

Without doubt the smartest footwear is the high boot—laced to be ultra—with light cloth top in either tan or gray, or, in some extreme cases, chamois. The vamp may be of either patent or dull leather, and the last is as yet an individual matter, although it is said that the short vamp is again upon the horizon. One recent importation which I saw was an ultra high boot, with light tan top and black leather vamp, black lacing and a touch of black tassel across the top. Another, a gaiter boot in tan, was so cut that the gaiter effect did not fail to yield ample room for the insertion of the foot even when the arch was extremely high. The gaiter effect is undiminished in popularity, whether the boot be very high or medium. But, despite predictions to the contrary, light cloth tops grow more popular daily.

THE GOOD HOUSEKEEPER'S HINT.

A delicious and inexpensive casserole dish is made as follows: Use two pounds of round steak cut from one inch to an inch and a half in thickness. Cut this in pieces of convenient size for serving. Saute both sides in an iron frying pan rubbed over with fat from the meat, to seal in the juices. Into the casserole put the meat together with carrot, parsley, small onions, a tablespoonful of kitchen bouquet, and salt and pepper to taste. Cover with brown stock, or boiling water, cover and allow to cook in the oven for an hour and a half. Serve from the casserole. Round steak is really preferable to the more expensive cuts for this nutritious and excellent dish.

Rainy Day Clothes!

What sort of vision comes to mind as you think of rainy day clothes? Some skirt of other years, minus its or bang, wedged but ready to be lightly put asunder from a jacket of another age, a hat which has spent the summer in the attic or the darkest closet where its unbecoming shape was mercifully in eclipse and very likely a veil of the very color which all the spectators in the most removed from yours. Add to this alluring costume a limp ribbed umbrella with a warty handle, and can you wonder that rainy weather makes people the blues? It makes you dismal to wear such things and sets on edge the teeth of those who see them.

Do you know, I have all my life fought the nearly uncontrollable desire to dress myself on a rainy day in the very best garments I possess. Perverse, I know, for there is clothing appropriate to rainy weather wear—of course—but I just cannot help the wish to thus combat the gloom. And let me confess—I have many times dressed in my best—best entirely inappropriate to wet weather wear and have allowed my friends to think that I was "going somewhere" when it was only that I wished to meet and overcome the weather. Sometimes, let me say, the weather has overcome me instead and has made havoc with my finery, but on the whole, I think I have had the best of it. It is amazing how long one can dodge between the drops and meet with little damage. At the City Hall.
REVAMPING OLD
PLAZA DISTRICT.PLANS ADVANCED TO REGRADE
AND PAVE IT.

Marked changes to occur in streets surrounding initial point of ancient Pueblo-Ordinance of Intention for Extensive Work is Passed by City Council.

The old earth streets surrounding the Plaza are to be given a new modern paving. The streets are to be placed on a new grade, and the district is to be practically revamped by the improvements that are to be carried out through plans prepared by the City Engineer for what is termed the Plaza street improvement district. The ordinance of intention to carry out this work was adopted by the City Council yesterday. Time for hearing protests was set for December 16 at 9 a.m.

This general improvement is intended to complement the final work on the improvement of Sunset boulevard, whereby a wide, paved highway with easy traffic grade will be opened directly to the Plaza.

The work included in the Plaza improvement district consists of the change of grade and paving of Plaza street, from Los Angeles street, from Aracataca to Alameda street, from Aracataca street, from Main to Alameda street, and a portion of North Main street.

The change in grade will make a marked difference in the general appearance of the district. Along the easterly frontage of the Plaza the street will be lowered from four to six feet. The curb and sidewalk surrounding the Plaza will be placed on the new grade, and this will require the construction of a retaining wall along the park's edge. The Board of Public Works yesterday referred this feature to the Park Commission, so that it may provide for the wall in connection with the street improvements.

DISAGREEMENT.
DISCUSSION OVER BONDS.

There was a decided disagreement between members of the City Council yesterday as to what its attitude should be regarding the request of Rollins & Sons, purchasers of the city harbor bonds, that they be allowed to draw down the \$10,000 certified check filed with the city as assurance that they will take the remainder of the bond issue, and in place thereof that they be allowed to deposit \$10,000 worth of the bonds they have already purchased. This was refused because of the stringency in the money market, as the firm's \$10,000 is tied up and useless.

Councilmen Conwell, Snowden and Wheeler favored the granting of the permission desired. Mr. Conwell set forth the situation, pointing out the fact that the city will want the services of this firm in future to help dispose of the power bonds, and as a matter of business it should comply with the reasonable request. Councilmen Snowden and Wheeler took a similar attitude, but the result of the vote was only three in favor. The majority of the Council took the stand that there is nothing better than cash in hand, and that the city refused to have the certified check replaced by even the city's own bonds.

REGULATION.
"JITNEY" AUTO-BUSES.

The Public Utilities Committee of the Council is to wrestle with the problem of regulation for the "jitney" auto-buses. The Council yesterday referred to this committee the communication from the Board of Public Utilities declaring that it is time some regulatory action is taken.

The Public Utilities Committee will hold its next meeting at 10 o'clock Friday forenoon, and it will probably take up the subject at that time. A series of public hearings will occur before there is any definite decision as to legislation to be enacted in a certain, but the committee is increasing number of autos in this line of service and the new phases of the problem presented offer a subject on which there must be some pioneering in the legislative field.

Transfers Granted.

The Police Commission yesterday granted a transfer of the wholesale liquor permit for No. 392-5 North Los Angeles street from Emilio Rosendo to Echem & Schen, father and son.

The application of Ernest C. Junger for a No. 2 restaurant liquor permit for No. 115 East Fifth street was tabled, pending further consideration when there shall be some vacancies in the present list of such class of liquor permits.

The commission granted a transfer

of the Hotel Lankershim liquor permit from Edwin R. Cooper to J. R. Lankershim, proprietor of the hotel.

Hoover-street Paving.

The Fairchild-Gilmore-Wilton Company was awarded by the Board of Public Works yesterday the contract for the paving of Hoover street, between Fifty-first street and a point 112.45 feet southerly of the south line of Fifty-eighth street. The contract price is \$23,019.75, and the contractor is allowed 120 days within which to complete the work.

For Park Purposes.

Mrs. Dora Oliphant is the spokesman for citizens in the vicinity of Brymore Grove who are anxious that a lot adjoining the park be offered for sale in the near future be acquired as an addition to the park. She appeared before the Park Commission at its last meeting and urged it to take up the project, but was informed that there are no funds available. The commission stated, however, that it favors an attempt to acquire the property by means of a private subscription, there being a possibility of this being accomplished.

Humanitarians to Meet.

Representatives of all humanitarian organizations of Los Angeles county are invited to meet with the city's Humane Animal Commission in the Mayor's office at 2 o'clock Friday afternoon, to discuss changes that should be made in the charter for the widening of the scope of the commission's work.

At this conference the prospect of the consolidation of the city and county in one government will be borne in mind, and changes proposed will be subject to their adaptability for the consolidated form of government. The changes decided upon as advanced

will be submitted to the Municipal Efficiency Commission, which is to receive similar suggestions from the heads of all city departments and select therefrom such as may be formulated later in proposed charter amendments, to be submitted later to a vote of the people.

Damage Awards.

The Board of Public Works yesterday announced its decision as to awards on damage claims on the Harbor boulevard, from Palos Verdes to Fourth street, through the Sixth Hill district at San Pedro, and Sixth street from Palos Verdes to Cabillo street, San Pedro.

In the first-named improvement project the damages claimed by property owners totaled \$55,571, but the awards are cut down to a total of \$14,378. The damage claims on the Sixth-street project amounted to \$17,500, but the board's awards amount altogether to only \$12420.

Pictures Depict Cruelty.

The Humane Animal Commission in its full force of three members—count 'em, three—will go before the Board of Commissioners of Moving Pictures at the meeting of the latter body Friday morning and enter a formal but vigorous protest against the exhibition of pictures depicting cruelty to man and beast. War pictures that are not cruel will not be objected to, if there be any such.

Formal Land Transfer.

The Board of Public Works has formally transferred to the Park Commission the block of land bounded by Menlo avenue, Hoover street, Thirty-ninth street and Santa Monica avenue or Exposition boulevard, to be utilized as a portion of Exposition Park. This is the land acquired by condemnation proceedings for and paid for by a large assessment district. The Park Commission is authorized to forthwith remove all improvements situated on the block, with the exception of a cottage which has been turned over to the Playground Commission for use of the playground director at the Exposition Park athletic field.

Will Improve Entrance.

The Park Commission is considering plans for the improvement of the Thirty-ninth-street entrance to Exposition Park, recently acquired through condemnation proceedings. It has decided that it will be necessary for the Los Angeles Railway Corporation to move its tracks from the center of the street to the south side. The sub-station of the Pacific Light and Power Company is also in the way of the improvement planned, and the commission will order its removal at an early date.

Convention Delegates.

Mayor Rose yesterday received a request from the Rivers and Harbors Congress that he appoint delegates to the next meeting of this congress, on December 10, in Washington, D. C. He also received a similar request from the American Good Roads Congress, to be held in Chicago, December 14. Three delegates for each of these congresses will be appointed by the mayor.

Municipal This and That.

The Police Commission yesterday gave its approval to the appointment of two special police to serve without pay. They are Paul W. Jones, of the Woolworth store, and W. W. Swan, for the First National Bank.

The Central Hoover Improvement Association has appealed to the Board of Public Works for the betterment of the condition of streets in the district bounded by Normandie street, Figueroa street, Fifty-second street and Vernon avenue. The street department has been called to complete work in the district mentioned above will be undertaken and carried on until all the bad streets in the district have attracted attention.

The street department has paved the necessary portions of the intersection of the Alhambra road and the street driveway Huntington driving as to join up the good roads system with the pavement in South Pasadena.

The Board of Public Works has granted to the Los Angeles Railway Corporation an extension of time for the completion of the paving of its paying in Twelfth street between Main street and Central avenue. A sixty days' extension was granted for the completion of the paving of the alleyway between the Alameda and University avenue.

The Board of Public Works has granted a request for the purchase of three road graders for road districts Nos. 4, 8 and 9. The city still has seven old dump trucks on hand.

Capt. Miller, director of Miller's Military Band, made application to the Park Commission at its last meeting for permission to hold band concerts in Central Park. The request was taken under advisement until next Monday.

MAINTAINS INNOCENCE.

Preliminary Hearing of Man Accused of Getting Valuable Lease by False Pretense Postponed.

The preliminary examination of W. G. Griffith, charged with obtaining a lease on the Hotel King George of Venice, valued at \$40,000, by false pretenses, was heard before Justice Sumner yesterday.

W. C. Atkinson and W. J. Kimber, former proprietors of the hotel, the complaining witnesses, allege that Mr. Griffith told them he owned a mortgage on \$100,000 on land in Kern county and that bonds on the property were about to be issued for \$250,000, of which he would receive \$100,000 in exchange for the mortgage.

They testified that he promised to deliver to them \$25,000 in cash and the bonds and the remaining \$17,500 in six months' time in exchange for the lease on the hotel and the future.

The case was continued to November 30 by Justice Sumnerfield. Mr. Griffith vigorously asserted his innocence, there being no evidence to prove his innocence.

ATTEMPTS DOUBLE JOB.

Drunk Mexican Stabs Paramour, Then, Thinking Her Dead, Fatally Cuts His Own Throat.

Returning to his house at No. 415 Ord street early yesterday morning in a drunken condition, Jesus Olivas, a Mexican laborer, stabbed Mrs. Solida Vallejo, with whom he had been living, several times and then cut his throat with the same knife.

The man died, but the means of the woman attracted neighbors, and she was rushed to the Receiving Hospital, where it is thought she will recover.

WHERE A HABIT
PAYS FOLLOWER.DIARY AS A NAME-SAVER IN
DIVORCE CASE.

As Evidence that He was not in San Diego at Time as Alleged in a Misconduct Charge Husband Quotes from Daily Record, Former Decree Reversed.

A habit of seventeen years was put to good use in the divorce court yesterday when W. E. Dymart defended his good name from the charge that he had miscondemned himself at San Diego with Mrs. Viola Packard. A diary recording his daily business life as a buyer of cattle for a local packing company was the convincing proof.

Three of the five daughters testified against her and in favor of their father that she had been indiscreet during his absence from home. She was awarded \$4000 cash, and ordered to leave her home at No. 130 North Hancock street with Mrs. Dunn.

Mrs. Dunn was the chief witness. Mrs. Dora H. Dymart relied upon for evidence of her husband's misconduct in reversing the judgment of Judge Monroe when Mr. Dymart's divorce suit was tried last October. The conclusion of the trial at that time was that Mrs. Dymart had committed adultery.

The case was reopened yesterday after Judge Monroe had stated in his opinion that the evidence was not sufficient to support the divorce. Mrs. Dymart had been for thirty years, was uncertain of the date of her husband's return to San Diego, although in her affidavit it was set forth that he had been in San Diego, but she was unable to produce any evidence to substantiate her assertion that her husband was not blameless.
